Application

Syed Shahrukh Haider

Founder & Managing Director (Perception Tech, Pakistan) | Co-
Founder(Perception Foundry, Canada) | Assistant Professor
(Software Dept-SSUET)
Karāchi, Sindh, Pakistan

Summary

"Technical Skill"

Following are the lists of my hands-on experience:

- Swift
- Javascript/Typescript
- Rust
- Python 3
- C/C++
- ARKit
- Siri-Kit
- TensorFlow
- Keras
- PIC 16 & PIC 18
- Circuit Designing & Fabrication
- Verilog HDL
- FPGA
- Eagle-Cad
- ED-WinXP
- Proteus
- Processing Language
- Micro-Electronics Designing
- MS Office (Word, Excel, PowerPoint, OneNote)
- MS Visio
- Mac OS X
- Cisco Routing and Switching
- Cisco ASA
- Cisco ACS 5.2
- F5 LTM

"Management Key Knowledge:"

- Agile Project Management

- Gamification
- BOQ
- Pre-Sale Technique
- Just in Time (JIT) Technique
- 6 Sigma Methodologies
- Manufacturing Industrial initial
- Quality Management System (ISO)
- Resource Management
- Quality Assurance Techniques
- Cost Variance calculation

"Key Achievements:"

- Successful built numbers of Embedded based Projects during my Academic years & Professionals careers.
- One of the biggest achievement of my career was to built running Bluetooth based Project for NCR, Dundee
- Composed many BOQ with technique solution/advise for the valuable clients of my employer for whom I had worked for.
- On freelance basis; I have conducted successful seminar & training session on Engineering Management & Motivational Topics such as "Carpe diem", "Learning Effectiveness in Corporate Environment".
- I have a Conference Paper published "Usage of Industrial Water Tube Boiler by means of Android Application"

" Project and Achievement: "

- >NCR lab Academic project Related to Bluetooth Technology (MSc project)
- >PLC module design with CLI (Command Line interface) (BS project).
- >Sindh Govt IT Department project for E-Surveillance camera
- >Network Hardware Presale for various Local Banks in Pakistan and few provincial Government offices

"Independent Project:"

- >Sunset Switch Module

- >Keypad lock
- >Designed Object Counting System
- >Counting Glove

Experience

Perception Foundry. Inc

Co-Founder

January 2024 - Present (1 year 5 months)

Milton, Ontario, Canada

As a Co-Founder, I play a pivotal role in driving strategic growth and innovation across two key business areas:

1. Direct Local Client Engagement (Canada & USA):

Spearheading client acquisition and relationship management across North America.

Delivering tailored solutions for web development, native iOS, full-stack, IoT, and AI technologies.

Ensuring seamless communication and successful project execution to exceed client expectations.

2. In-House Product Development:

Leading end-to-end product development from ideation, research, and development (R&D) to deployment.

Overseeing AI-powered solution development and integration, ensuring cutting-edge technological implementation.

Managing operations and a skilled development team in the subsidiary, Perception Tech, based in Pakistan.

Driving team performance, fostering innovation, and aligning product outcomes with the company's long-term vision.

This dual role allows me to balance strategic client services with innovative in-house product creation, ensuring sustained growth and technological excellence for our company.

Perception Tech (SMC-Pvt) Ltd

Founder & Managing Director

February 2022 - Present (3 years 4 months)

Karachi

As the Managing Director of Perception Tech, I play a pivotal role in steering our company's strategic direction, ensuring operational excellence, and fostering a culture of innovation and collaboration. Beyond my responsibilities as a Managing Director, I am also actively contributing to the technical prowess of our team. Leveraging your expertise in Mobile app, Frontend, Backend, Machine Learning (ML) coding, and algorithms, I do assist fellow team members in refining their ML skills and developing sophisticated algorithms that power our applications.

Responsibilities:

Provide visionary leadership, developing and executing strategic plans to drive growth and expansion.

Oversee day-to-day operations, ensuring organizational efficiency, and upholding high standards of excellence.

Foster a collaborative and dynamic work culture, promoting innovation and professional development.

Cultivate and maintain relationships with clients, stakeholders, and partners, enhancing our market presence.

Assist team members in Machine Learning coding and algorithm development, sharing your expertise and insights.

Collaborate with cross-functional teams to integrate Machine Learning solutions into our software products.

Contribute to the integration of Machine Learning into mobile technology (iOS) and Internet of Things (IoT) devices, enhancing our technological capabilities.

Provide guidance and mentorship to team members, promoting a culture of continuous learning and technical advancement.

Sir Syed University of Engineering & Technology (SSUET)

12 years 11 months

Assistant Professor (Software Engineering Department)

April 2024 - Present (1 year 2 months)

Karāchi, Sindh, Pakistan

Passionate about preparing final year undergraduate students for the dynamic landscape of computing, specializing in professional practice. Leverage expertise in teaching programming languages such as Python, Swift, TypeScript, and JavaScript to equip students with essential skills for their future careers.

Key Responsibilities:

Design and deliver curriculum tailored to the evolving demands of the tech industry, ensuring students are proficient in cutting-edge programming languages.

Mentor students in the application of machine learning and deep learning concepts, fostering a deep understanding of these technologies.

Lead workshops and seminars on iOS Development and Node.js, providing hands-on experience and real-world insights.

Technical Expertise:

Programming Languages: Proficient in Python, Swift, TypeScript, and JavaScript.

Technologies: Advanced knowledge in machine learning and deep learning frameworks.

Platforms: Skilled in iOS Development and Node.js, with a focus on practical implementation and industry best practices.

Achievements:

Recognized for excellence in teaching and student engagement, consistently receiving positive feedback from students and peers.

Developed innovative learning materials and resources, enhancing the overall learning experience for students.

Actively involved in curriculum development and program enhancement initiatives, ensuring alignment with industry trends and standards.

Collaborations:

Collaborated with industry partners to provide students with valuable internship and project opportunities, bridging the gap between academia and industry. Facilitated guest lectures and industry workshops, exposing students to real-world challenges and solutions.

Impact:

Empowering students to thrive in the fast-paced world of technology by equipping them with practical skills, industry insights, and a passion for continuous learning.

Assistant Professor (Electronic Engineering Department)

July 2012 - April 2024 (11 years 10 months)

Karāchi, Sindh, Pakistan

1. Course Delivery:

Designing and delivering engaging lectures, seminars, and workshops for undergraduate and graduate students in diverse subjects, including Entrepreneurship, Engineering Management, Professional Practice, Electronics Circuit Design, Microelectronics, Verilog HDL, Basic Electronics, Digital Electronics, Embedded Systems, FPGA, and Computer Networking (Routing & Switching and Security).

Creating comprehensive course materials, syllabi, and assessments that align with curriculum objectives and foster active learning.

2. Student Engagement:

Fostering a dynamic and inclusive learning environment that encourages critical thinking, collaborative problem-solving, and practical application of concepts.

Providing individualized attention and guidance to students through office hours, mentoring, and academic advising.

3. Assessment and Feedback:

Developing fair and effective assessment methods, including assignments, projects, exams, and presentations, to evaluate student learning outcomes. Providing timely and constructive feedback to students to support their growth and improvement.

4. Curriculum Development:

Contributing to the development, review, and enhancement of course content and curriculum to ensure alignment with industry trends and academic standards.

5. Research and Scholarship:

Engaging in research, scholarly activities, and publication relevant to your field to advance knowledge and contribute to the academic community.

6. Professional Development:

Staying abreast of current developments in your field and integrating industry advancements into your teaching methods.

Pursuing opportunities for professional growth, networking, and continuous improvement.

Apportunity Inc
iOS App Developer
April 2021 - January 2022 (10 months)
United States

I am responsible to work on ongoing native iOS base project which are assigned by company's higher managements.

Responsibilities:

- . Design and build applications for the iOS platform
- . Ensure the performance, quality, and responsiveness of applications
- . Collaborate with a team to define, design, and ship new features
- . Identify and correct bottlenecks and fix bugs
- . Help maintain code quality, organization, and automatization

Panacloud Pvt Ltd
Senior iOS Developer and IoT Engineer
April 2017 - December 2021 (4 years 9 months)

Karachi

I have been working in this company as part, in the area of iOS development. My job description is to assist and collaborate with iOS team in current running projects. Along with it I have to given solution to the my team with how to integrate IoT technology with company's client is seeking for.

Al Maria Middle East Technologies

Network & Security Engineer

December 2011 - June 2012 (7 months)

Karachi, Abu Dhabi

My major responsible was work on all network Security hardware configuration with auditing like Cisco ASA, Router & Switch. Along with this i have also gained expertise in various other networking domain which include Cisco Unified Communication (voice & wireless) , F5 LTM configuration with iRule programming. While stay in this company i was also involved in presale for major product line of Cisco, Sophos and F5.

NCR Corporation

Labs Academic Project Placement

April 2011 - August 2011 (5 months)

For my master project I got opportunity to do industry base project with NCR Corp.I designed a system, which can create a medium for speech communication between my designed system and any other bluetooth enabled device. During this project I worked on Arduino Mega2560 microcontroller with Bluegiga's module for Bluetooth communication.

Arwentech

Network Engineer

August 2009 - August 2010 (1 year 1 month)

Worked as a Network engineer in Pre-sale department. My duty was to have meeting with company's new customers or existing respectable clients and inquire their requirement and suggest networking solution with respect to their requirement and budget. Once meeting gets over I have to compose a BOQ in which I mainly suggest solution of two renowned network equipment vendors, CISCO and JUNIPER. During my one year experience in this department I had seldom gave solution of MANAGER ENGINE for Enterprise IT Management solutions

PIA

internship

July 2008 - August 2008 (2 months)

Completed one month internship in Pakistan International Airline, Karachi. During my internship I was involve in Computer system maintenance. These maintenance include install hardware replacement, installation for operation system and create local network especially setting up wireless router and access point.

Education

University of Dundee

MSc., Electronics circuit design and Manufacture · (2010 - 2011)

Sir Syed University of Engineering & Technology (SSUET)

BS, ELECTRONICS · (2005 - 2008)

Shaheen Intermediate College

Intermediate · (2002 - 2004)

CCNA

· (2009)

JNCIA-ER & JNCIS-ER
